To the Dental and Medical Practitioners practicing in Melbourne's north

Dear Colleagues,

After a successful start in North Melbourne and Sunshine, I am pleased to announce that we are now also offering oral surgery services in the new purpose-built Epping Medical & Specialist Centre, 230 Cooper Street, Epping.

Services include the full range of oral surgery with a particular focus on implant surgery, wisdom tooth removal and all other aspects of dento-alveolar surgery. We are able to offer procedures either under local or general anaesthesia depending on patients' requirements. We accept Veterans' Affairs vouchers and bulk bill under the Medicare EPC programme.

My background – I completed my dental degree at the University of Göttingen, Germany in 1994, where I continued as a research associate in the Department of Neuropathology at the University of Göttingen with my research focused on the oncogene expression in childhood brain tumours and I received my doctorate in 2000.

I subsequently undertook postgraduate surgical training in oral surgery and received my Board Accreditation Certificate in Oral Surgery from Berlin, Germany, in 2005. I am a Fellow of the German Association of Oral Surgeons. I hold a part-time position in the Oral & Maxillofacial Surgery Department of the Royal Dental Hospital (Melbourne) providing public services.

I invite you to visit our website "[www.surgident.com.au](http://www.surgident.com.au)" for further details.

You and your patients can arrange appointments by telephoning 9600 9232. Please call if you would like business cards and referral pads. These can be sent to you for your convenience.

I would be very happy for you to suggest how I can best meet the needs of your practice and patients – please do not hesitate to contact me.

Yours sincerely,

Martin Wilkening
